A Note From the Teacher:

Wow, only four days left of first grade! We have been doing lots of review in phonics and math. In arithmetic, I will briefly introduce the concept of multiplication this week. Keep working on those addition and subtraction facts. We want to have them memorized before second grade!!

Please be sure to turn the last form for the reading contest in on Tuesday. I am pleased to see good participation! Also, there will be no homework next week. Please be sure to empty your child's backpack each night as I try to send home school stuff each day to avoid a huge amount on the last day of school.

Please look over the items in your student's folder then sign the space for Week 36 on the inside of the folder.
